

BEL LIGHTING

VALUE ADDED TO LIGHT

Project : Mystras Grand Palace Resort & Spa - Greece

ABOUT OUR COMPANY

Founded in 1991, **BEL-LIGHTING** is still to this day an independent family company with over fifty employees working here at our present factory in Megara (Greece) and headquarters in Saintes (Belgium).

Lighting creator specialized in **outdoor lighting**, we constantly follow new developments in lighting technology and **we are always attentive to the specific needs** of our partners around the world to design and produce new innovative products that correspond to the requirements of our customers in the private or public domain.

ABOUT OUR COMPANY

Factory - Greece

Headquarters - Belgium

The **creation**, **design** and **production is done in-house**,
we have firmly decided to build our reputation with high quality,
that's why we always use **first choice materials**,
all products are also manufactured with natural materials
(**aluminum** ,**brass**, **stainless steel**, **copper**, **exotic iroko wood**
and **Belgian stone**) without coating and are **fully integrated**
into their natural environment.

Our philosophy is built on **innovation**, **quality**, and **reliability**.
With respect for the environment and our partners' needs,
we provide lighting solutions that not only serve functionality but also embody the **artistic expression of light.**

OUR PHILOSOPHY

At **BEL Lighting**, we believe that lighting is far more than a technical element—it is a **source of inspiration and creativity**.
The right lighting highlights architecture, shapes the atmosphere, and brings every space, indoor or outdoor, to life.
Every project is unique to us.
That's why we select premium materials and natural elements, combining technology with aesthetics to create fixtures that stand out for their **durability, design, and timeless character**.

MATERIAL SELECTIONS

The **creation**, **design**, and **production** of our products are carried out in-house to ensure **the highest level of quality**. We use strictly selected, premium materials, while some products are crafted from natural materials such as aluminum, brass, stainless steel, copper, Iroko wood, and Belgian stone, **guaranteeing excellent aesthetic and functional results.**

FEATURED LIGHTS

Technical quality and **exceptional design** are our top priorities in the production of all our products.
Our passion for light drives us to create fixtures that are both refined and functional — where elegance meets precision.

Our collection of lighting fixtures is created for projects that demand more than illumination —
they require **harmony** with their surroundings.
Blending technical precision with artistic vision,
our luminaires enrich every environment with both practicality and beauty, transforming spaces into unique experiences.

FEATURED LIGHTS

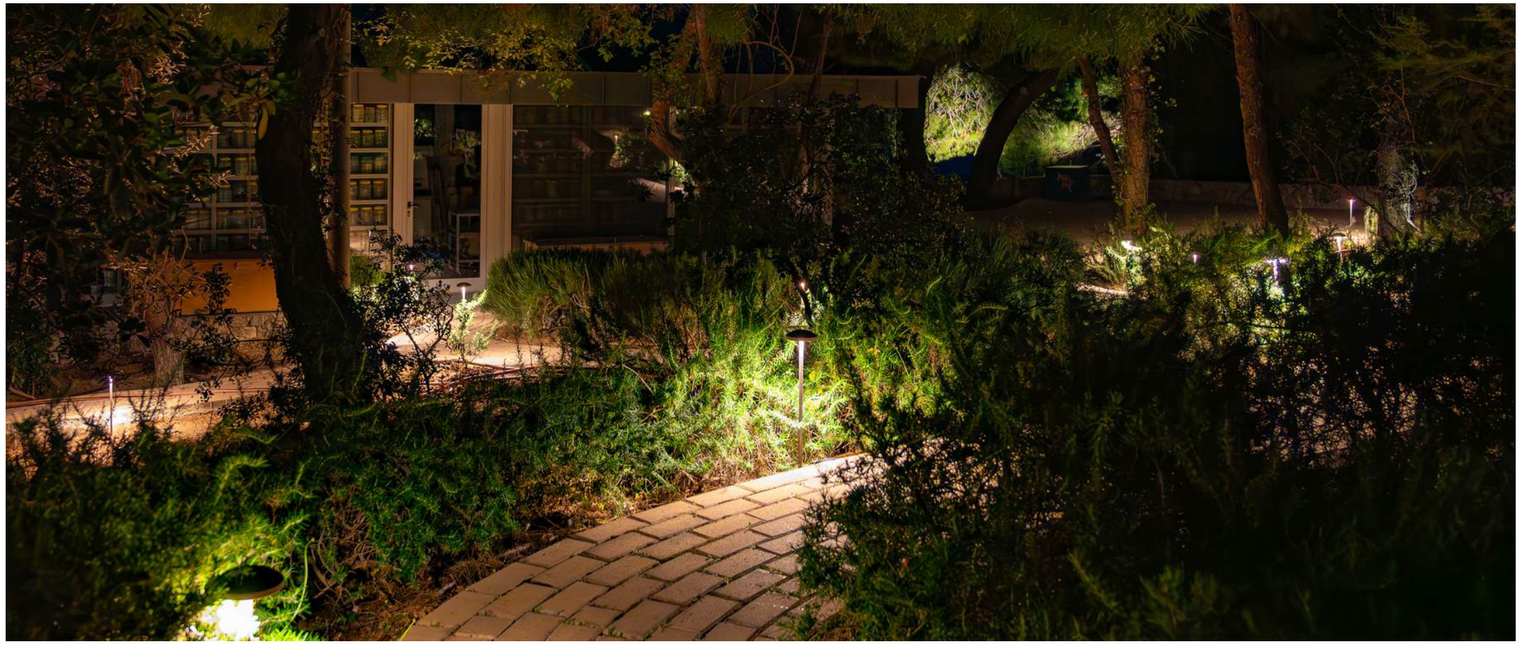

Designed with clean lines and built to last,
our lighting fixtures combine minimal aesthetics with uncompromising durability.
Certified by accredited laboratories for water and impact resistance, they stand strong against time and the elements, bringing lasting brilliance to every environment.

Crafted to complement and elevate any space,
our lighting fixtures merge sleek aesthetics
with purposeful functionality,
creating environments that are both beautiful and practical.
